

Exhibit J

The Difference is Ultrasound

Ultreo takes power brushing where it's never gone before. Invented at the University of Washington in association with former scientists, engineers and executives of Optiva Corporation (original developers of the Sonicare® toothbrush), Ultreo is the first power toothbrush to combine patented ultrasound waveguide technology with precisely tuned sonic bristle action. Ultreo's bristles create microbubbles that are powerfully activated by nearly 4 million cycles of ultrasound energy per brushing channeled by a proprietary ultrasound waveguide. The result is an incredible, long-lasting feeling of clean. [Learn More](#)

Independently tested for both safety and effectiveness, Ultreo has been proven to remove hard-to-reach plaque, improve gum health and reduce stains for naturally whiter teeth. In a recent study, 8 out of 10 people who used Ultreo for 30 days said they would switch to Ultreo from their current power toothbrush. And of those who expressed a preference, 8 out of 10 thought the overall cleaning provided by Ultreo was better compared to the power toothbrush they normally use.

Read What Our Users Think

Lynne Bratton

"Have been using my Ultreo for three months now and I just returned from a visit to the dentist. I have gum disease and my hygienist quickly commented on the fact that my gums were in better shape than the last visit. I told her that I had purchased the Ultreo and she was really impressed with the results. I told her that I LOVE this toothbrush and that my teeth feel dentist clean after brushing and that this continues even throughout a night's sleep."

[Read full comment](#)

Eve Leonard

"I love my Ultreo! I just had my first cleaning and dental checkup after using my Ultreo for three months. The very picky hygienist said my teeth were almost "spotless." This is an amazing comment, never before heard from her! My pockets are improved, and the cleaning was shorter than ever. Thanks so much. This is a great toothbrush, and I love using it. The travel case works well. Happy smiles here!"

[Read full comment](#)

Mike Millner

"The Ultreo toothbrush is the best power toothbrush I have ever used. After one week, I have whiter, smoother teeth. The smaller neck size really makes it easier to reach difficult places. It also really battles and takes care of plaque and leaves you with the feeling of just leaving the dentist. I cant wait to see continuous, whiter results as time passes."

[Read full comment](#)

Marlaina Williams

"I NEVER thought I would LOVE a toothbrush the way I love my Ultreo. I had only had my Ultreo for 4 days when it was lost in my luggage on a recent plane trip. Of all the things that are missing - I am desperate to replace my Ultreo. It's an amazing product!"

[Read full comment](#)

David Goren

"The Ultreo is one of those products that comes along only a couple/three times in one's lifetime. It is simply amazing. It has elevated my oral hygiene to new heights... Before I had to scrape the tarter/plaque off the inside of my lower teeth."

[Read full comment](#)

Jeanette Harris

"I love my new toothbrush. I am ordering now for the family so I can get a jump on next Christmas. What an improvement in my teeth."

[Read full comment](#)

Susan Becraft

"My hygienist was amazed when she cleaned my teeth after I had used my Ultreo for three months. I tend to have staining problems, which require major work on her part, but she completed the task in under 10 minutes. I also have two pockets that might have required periodontal work, but they have greatly improved. My teeth look and feel "dentist-clean" after I brush them. I've used Sonicare and Oral-B, both of which were far better than manual brushing, but, in my opinion, Ultreo outshines them."

[Read full comment](#)

David Giuliani (Primary Inventor of Sonicare)

"In my experience, the Ultreo provides a more thorough cleaning that seems to last longer. I especially notice deeper cleaning in the lingual aspect of the mandibular central incisors. I'm looking forward to seeing what my hygienist notices."

[Read full comment](#)

Nancy Cronig

"It was quite a change from the round toothbrush and I had to adjust to the difference. I do feel the Ultreo cleaned my teeth better. It removed a lot more food from between the teeth than the prior toothbrush. I almost didn't need to floss!"

[Read full comment](#)

James Wright

"The Ultreo seemed to clean my teeth better than the Sonicare. When I flossed after brushing, there was quite a bit less food debris between my teeth. My teeth appear to be whiter as well. The Ultreo also does not tickle parts of my face and mouth as I am using it."

[Read full comment](#)

Charlotte Boynton

"I have been using it only for a week and I am delighted with it. I was previously a manual brusher. I take good care of my teeth by flossing and bushing regularly but even that good care does not match up to what the brush has done for my mouth. It feels cleaner for longer and it appears to me that my teeth are brighter in color. My gums feel like they are healing."

[Read full comment](#)

Bill Lundell

"Wow! - I have been a dedicated sonicare user for the last 10 years. But I was amazed at how good my teeth and gums felt during and after brushing with your Ultreo. My teeth feel cleaner long after I've brushed, even after a meal. You guys have definitely set the new standard for a consumer toothbrush."

[Read full comment](#)

Mark Fowble

"My ULTREO came yesterday - GREAT customer service to you all ! ! ! First use was this morning and felt so good I went two

cycles !! Having been at the beginning of Sonicare's availability in 1994 (one of the first purchasers) and subsequent improvements on into Phillips ownership, I thought let's try this new product. I am very glad I made this decision - I know my hygienist will be pleased come my next appointment."

[Read full comment](#)

William Donaldson

"One month of use with my new Ultreo and off of the old Sonicare. My teeth are definitely much whiter (no more strips for me) and the experience of a longer lasting cleaning is undeniable. This is a Great New Innovation in personal oral hygiene!!"

[Read full comment](#)

Foster Wilson

"Wow, I was an early adopter of power tooth brushes. Sonicare has been my choice until the Ultreo came my way. After using the Ultreo for two weeks I can never go back to the Sonicare!"

[Read full comment](#)

Thomas Kim

"Ultreo toothbrush is amazing, my teeth feel so refreshed and clean! I can always feel it's squeaky clean no matter if I eat or wake up the next day and it still feels so clean! Plus it's "deaf-friendly" since every 30 seconds I can feel the toothbrush pause then resume!"

Ultreo Features

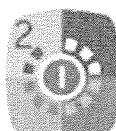

Sonic Bristles With Power Tip

Sonic action bristles with power tip clean away plaque upon contact and create microbubbles.

Patented Ultrasound Waveguide

Channels ultrasound energy into the bubbles.

Auto Shut-Off Timer

Automatically shuts off after the dental professional-recommended 2 minutes of brushing time.

Brushing Interval Signal

Signals every 30 seconds to help you clean all areas of your mouth equally.

Programmable Brush Head Replacement Indicator

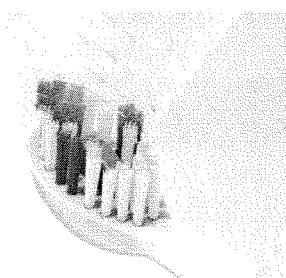

When it's time to change your brush head, the word "REPLACE" will illuminate. Programmable for 1 or 2 users per handle.

Battery Charge Status Indicator

Tells you the level of charge on the battery. With a full charge, you can use Ultreo for up to 28 brushings without additional charging.

How Ultreo Works

Ultreo is the first power toothbrush to combine patented ultrasound waveguide technology with precisely tuned sonic bristle action. Ultreo's bristles create microbubbles that are powerfully activated by nearly 4 million cycles of ultrasound energy per brushing channeled by a patented ultrasound waveguide.

What to Expect

The Ultreo brushing experience is unlike any other toothbrush. Here are some useful tips to help you become accustomed to the unique feel. We guarantee that after the initial adjustment period, your teeth will feel cleaner than ever before.

- As ultrasound requires a fluid medium to perform effectively, try to keep as much fluid around the bristles as possible while you brush.
- Ultreo has been designed to work with a small "pea-sized" amount of toothpaste.
- Ultreo should be used with gentle pressure and a light touch.
- Keep the bristles, not the waveguide, in contact with the teeth and gumline while brushing.
- You may feel the waveguide touching your teeth at first. This is normal and most users report that the waveguide is not noticeable at all after the first few brushings.

Purchase an Ultreo ultrasound toothbrush and use it for 30 days. If your teeth don't feel cleaner than ever before, give us a call at 1.877.4.ULTREO and we'll refund your money. We believe in our ultrasound difference. [Buy Ultreo](#)

Ultreco Benefits

A Deep Clean

Ultreco's combination of patented ultrasound waveguide technology and sonic bristle action can remove hard-to-reach plaque for an incredibly deep feeling of clean.

A Faster Clean

Ultreco has been clinically proven to remove up to 95% of plaque from hard-to-reach areas in the first minute of brushing.

Naturally Whiter Teeth

Ultreco has been clinically proven to remove surface stains for naturally whiter teeth in just 14 days.

Improved Gum Health

Ultreco has been clinically proven to reduce gingivitis in just 30 days.

A Safe and Gentle Clean

Ultreco is shown to be safe and gentle for everyday use on gums, natural tooth surfaces and dental work.

A Brushing Experience People Love

8 out of 10 people who used Ultreco in a recent study would switch to Ultreco from their current power toothbrush. And of those who expressed a preference, 8 out of 10 thought the overall cleaning provided by Ultreco was better compared to the power toothbrush they normally use.
